The **Fondazione Acquario di Genova Onlus**
(Area Porto Antico, Ponte Spinola, 16128 Genova, Italy)

has the great pleasure of awarding the international **ecocrest©GOLD** label

to the **pearls and mother-of-pearl (MOP)** produced by

PT DAFIN MUTIARA (NUSANTARA PEARL GROUP)

(Jln. Satelit Utara III DT no. 5, Surabaya, East Java 60187, Indonesia) in 2023.

The Pearls and Mother-of-Pearl produced by the **PT DAFIN MUTIARA (NUSANTARA PEARL MGROUP)** in 2023 in various sites (Malaku Tenggara, Kota Tual, Kepulauan Aru and Morotai) in Indonesia was obtained according to the sustainable use of coastal marine resources in Indonesia and from a sustainable marine aquaculture based on hatchery-reared oysters, taking into account the maximum care for the ethic, for all the environmental aspects and rules, strictly following the pertinent regulations enforced in Indonesia and respecting the ILO/UNO principles, particularly as concerns the child labour. Furthermore, the production chain and process have, as their real target, the perspective to reduce their dependence on fishing from the wild stocks in Indonesian coastal areas and islands (which is already set at a very marginal part), the decrease and progressive abolition of production waste, the use of all discards and the further development of a farming system having a very minimum environmental impact.

The **PT DAFIN MUTIARA (NUSANTARA PEARL GROUP)** is therefore authorised to use the official **ecocrest©GOLD** logo to distinguish worldwide its **Pearls and Mother-of-Pearl production in Indonesia** from the 2023 harvesting campaign, as a **sign of excellence for a sustainable, correct and ethic product.**

Genova, 23 May 2023

Dr. Nicola Costa
President
